***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7, 15 drawn to a method of evaluating food and drinks.

Group II, claim(s) 8-14, 16 drawn to an indicator for evaluating a quality of food and drinks.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The special technical feature is a sealed transparent bag to hold gas produced to detect microorganisms in food.

Ogawa (6,855,514) teaches in column 1 lines 20-24, detecting the presence of microorganisms in food. In column 3 lines 22-28, a device that is a transparent bag with a fluid culture medium containing a sample where gas produced is detected. In column 8 lines 3-32, the container is described for detecting microorganisms. In column 10 lines 6-9, food products are analyzed.

Thorpe (5,856,175) teaches in column 6 lines 34 to end, various sensors and detectors in the polymer matrix which is in a sealed transparent vessel to detect gases. In column 14 first paragraph foods are analyzed.

There is no special technical feature as shown by each of Ogawa and Thorpe because a sealed transparent bag to hold and detect gas produced by microorganisms in food is known, therefor lack of unity exists.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
